## PLASMA PEN™

Plasma Pen™ Is The Non-Surgical Solution to Lift, Tighten & Shrink Excess Skin

The Plasma Pen is the newest cosmetic procedure to combat wrinkles, loss of collagen, and sagging skin and is now available at EMA Skin Aesthetics in Preston. It is a 'soft-surgery' procedure targeting a wide variety of skin conditions including loss of elasticity, sagging, and wrinkles that have been traditionally treated with fillers or plastic surgery.

Most common treatable areas include:

- Eye Bags & Lids
- Smile Lines
- Cheek Lift
- Acne Scarring
- Crow's Feet
- Lip Lines
- Neck Lift
- Tummy Lift
- Marionette Lines
- Jowl Lines
- Forehead Lines
- Scar Tissue

### How plasma treatments affect the skin

As we age, our dermal layer thins and the production of collagen molecules slows down dramatically leading to, a deflationary effect on the surface of our skin causing us to get lines, wrinkles and sagging skin. In simple terms the scaffolding of your skin collapses. Plasma pen rebuilds the scaffolding of your skin to as it was in more youthful years. It rebuilds and strengthens the fibre blasts, providing you with incredible anti aging results that are non invasive and working with the improvement of your skin function. Giving you results that last up to 3 years. Turn back the clock without being invasive

In more scientific terms the Plasma Pen™ hand-piece converts electrical energy into an electrostatic energy to create artificial nitrogen plasma. The nitrogen plasma energy we create transfers rapidly to the skins epidermal layer, whilst simultaneously heating & disrupting the deeper dermal structure via thermal conduction. This in-turn causes the skin to regenerate new cells, removing loose/creepy/saggy skin, replacing it with firmer & softer skin. Reducing the appearance of aged skin so that you appear 'younger' yet still look like yourself.

# SKIN CLINIC

## HyaPenPro™ NON SURGICAL LIP FILLER

The ideal non surgical volumiser for lips and mouth region of the face.

Its all without needles & delivered with absolute precision thanks to our 7 exclusive variable pressure settings. With unique and adjustable dosage actuations which ensures a fuller more natural lip enhancement.

Injectables are great. However, they can come with many downsides & complications not possible with HyaPenPro. They traumatize the skin & tissue and carry much more risk. The super-even distribution of filler product with HyaPenPro is vastly more uniform compared to injectable product, we prevent product wastage by design & ensure accurate volumes are delivered during any procedure.

Our results are much more representative & immediate due to the comparable lack of swelling & filler product spreads and settles within 2 – 5 days compared to up to 20 days with injectables. Because we only deliver product to the dermal layer - without a needle - then, in most territories; medics and non-medics can use HyaPenPro. We deliver product accurately, safely & with little-to-no swelling, pain, discomfort or bleeding & virtually no side-effects, social downtime or fuss.

Lip Volume

Marionette Lines

Smile Lines

Lip Lines

Nasal Labials

Smokers Lines

Prices start from £200

Hyaluronic acid is the most hydrating substance in our body. It gives our skin the moisture levels required for youthful hydration and texture. It's highly versatile plus it's proven and natural. Since the human body naturally produces HA then it's impossible for anyone to have an allergic reaction to it. There are many types of filler but hyaluronic acid dermal fillers are used in >90% of all treatments thanks to its absolute safety, easy distribution and many other benefits including its vibrancy, biocompatibility, reversibility & antioxidant properties.

# SKIN CLINIC

## EMA MILLION DOLLAR FACIAL

If you want total skin confidence look no further this is the treatment for you absolutely remarkable and instant results. The EMA Million Dollar Facial is a new facial where science meets indulgence which results in million dollar flawless glowing skin.

Includes, Dermaplane, Chemical Peel, Mesotherapy with Micro needling, Collagen, Elastin and Hyaluronic infusions massaged deeply into the skin, followed by instant lifting Face and Neck infusions. Then the million dollar Hydrogel Collagen Mask. To finish, the Opera Mask and a perfected blend of serums, moisturising application to enhance results and to deliver Million Dollar Results! Eliminates fine lines and wrinkles, lifts and firms, lightens age spots and pigmentation, minimises pores, achieves a youthful complexion for all skins. Results – instant and you will continue to achieve results for up to a month after the facial.

## INTRACEL FACIAL

Intracel Facial Treatment is a state of the art, non-surgical treatment for tightening and firming skin and reducing the appearance of wrinkles without the down time associated with laser resurfacing or surgical facelift. Otherwise known as the Lunchtime Facelift.

It combines radio frequency technology (Amanda Holden's favourite regular treatment), microneedling, chemical peel and opera LED therapy, all in one simple procedure. The body's natural healing process produces a new, healthy and tighter skin structure in the treated area and the surrounding skin. A treatment for truly youthful flawless skin.

## SKIN CLINIC

### DERMAPEN™ MESOTHERAPY

Mesotherapy Electric Dermapen is a breakthrough in the field of cosmetology & aesthetic medicine developed for treatment of various skin conditions. The Dermapen™ uses micro-needling technology and has a phenomenal effect on collagen and elastin rejuvenation.

Active ingredients from the mesotherapy products used are delivered to the deeper layers of the skin via the micro-channels. The small footprint of the device makes it ideal for treating hard to reach areas such as around the eyes, nose and mouth. The Dermapen™ is especially effective in the reduction of the appearance of scarring as well as the reduction of the appearance of pigmentation.

Dermapen stimulates natural regeneration processes, releasing natural growth factors to stimulate reformation and deposition of fresh restructuring collagen. Combining with Mesotherapy the results are similar to having injection fillers after just a few days. This is partly due to the use of Hyaluronic acid with mesotherapy that is actually the main ingredient to fillers. In addition other mesotherapy ingredients are infused to intensively treat other concerns you may have. Mesotherapy is a treatment that will provide you with a visible difference immediately after the treatment, and you will continue to see further phenomenal results weeks after the facial. Truly flawless results.

A course of between 4 – 6 is recommended with approximately 4 week intervals

### LA FACELIFT (FREDDY FELIX TECHNIQUE)

The L.A. facelift is a Freddy Felix technique; Freddy is a Los Angeles based practitioner working with high-end celebrities, with years of experience.

The procedure involves a Mesolift using the Mesotherapy treatment; achieving the desired lift involves working with the back of the neck, ears, through the hair line and through the front scalp. Overall, an increase in the production of collagen and elastin in the areas results in a natural-looking lift to the face and neck.

We recommend a minimum of 6 treatments, to be completed every 6-8 weeks.

Your final results will be a fresher, more youthful face and neck appearance, with an amazing, natural lift.

## SKIN CLINIC

### IPL PHOTO-REJUVENATION

Photo-rejuvenation enables us to treat a range of skin concerns such as age and sun spots, freckles, rosacea, broken capillaries and stubborn pigmentation, the treatment delivers remarkable results.

IPL (Intense Pulsed Light) technology gently and effectively eliminates spots, discolouration, and unwanted blood vessels.

Depending on your specific concern, you can expect the session to last 15 – 45 minutes.

## RESULTS YOU CAN SEE

Before and after photographs are an important part of the treatment process. It not only demonstrates to those seeking a treatment that the results are genuine – it also provides an important record for our clients. They are able to have visual 'documentation' of the positive changes – this can greatly improve an individual's perception of themselves and can be a great confidence and self esteem builder.

### Forma™ treatments before and after images

# SKIN CLINIC

## ULTIMATE FACIAL - ALL IN ONE TREATMENT

If you are looking to achieve a flawless skin, youthful appearance, skin radiance and a non surgical face lift this is the treatment for you!

Using state-of-the-art technology including Photo Rejuvenation, Diamond peel, radio frequency, and skin tightening, this non-surgical facial will remove any flaws such as thread veins pigmentation, deeply exfoliates to refresh and smooth the skin. The treatment also builds collagen and elastin whilst tightening and toning the muscles. For immediate results and younger-looking, glowing skin, look no further than this stellar facial...

### Benefits

- Brighter, tighter and clear skin
- Visible results after one session
- Virtually pain-free procedure
- Intense collagen boost
- Safe alternative to a Surgical facelift
- Target work completed to eliminate thread veins, pigmentation, age spots and blemishes
- Suitable for most skin types

## RADIO FREQUENCY SKIN TIGHTENING – THE LUNCH-TIME FACELIFT

Radio Frequency, which gently heats the skin and is often referred to as the lunch-time face lift due to its immediate tightening and toning effects, is then utilised as well as a micro current to stimulate existing and encourage new collagen and elastin to grow.

Radio Frequency is a form of heat energy that tunes into the superficial layer of the skin, gently heating the dermis and causing new collagen growth deep within the dermal layer.

This also results in further tightening and toning. All of these elements combined will reverse the signs of ageing, promote skin tightening and ensure an overall youthful complexion.

## Me Line Melasma

The range of Me Line treatments is the first pigmentation removal system in the world that works on specific types of pigmentation and can be used to treat most skin types, on both the face and body.

This proven stable formulation has clinical studies to back up the results:

- Excellent results in 95% of hyperpigmentation cases
- Significant reduction in fine lines in 90% of ageing skins
- 85% of acne prone skins noticed a visible improvement in breakouts
- Excellent results in 65% of melano-hematic patients

## What is the Me Line treatment?

Me Line treatments can be used for all types of pigmentation, including those that have been caused by hormonal issues, sun exposure or skin trauma such as acne. What people often don't know is that we can actually treat different parts of the face and body, including under the arms, hands, knees, elbows and intimate areas.

**Me Line really is a great treatment for all forms of pigmentation in all areas of the body.**

Me Line can help treat:

- Solar lentigines
- Acne scarring
- Melasma
- Post-inflammatory pigmentation
- Pigmentation on both the face and body
- How does the Me Line treatment work?

Me Line treatments are usually spaced 4-6 weeks apart and involve an in-clinic peel protocol with the use of homecare products for the best possible results.

Both Me Line in-clinic treatments and home care products contain a combination of active ingredients that act on the pre-synthesis of melanin, as well as on the direct activity (synthesis) and even post-synthesis of tyrosinase. This controls the three different stages involved in the deposit of melanin on skin tissue, which leads to pigmentation and skin discolouration.

Utilising a resurfacing action and enzyme inhibitors, the treatment protocol should be followed by the use of two Me Line homecare products that work in synergy and complement the professional treatment applied by the clinician. It is essential the home care products are used in order to complete the treatment, enhance its efficacy and prolong the effects.

**Is there any downtime after treatment?**

Post-treatment downtime symptoms are usually experienced around two days after the Me Line treatment.

**Symptoms tend to include:**

- Tight and tender skin
- Dry and flaky
- Some pink and or redness that will usually subside after a few days
- Who is the treatment for?

The Me Line treatments are for anyone who suffers with pigmentation on both the face and body area.

**The treatment actively targets:**

- Resurfacing of the epidermis
- Reducing the appearance of pigmentation
- Prevention of further production of melanin

The Me Line treatments are individually priced in accordance with the areas treating. Starts from £125 per treatment.

## Hair Loss Mesotherapy with Dermapen

Hair loss or thinning can occur for different reasons – it can happen with age, stress or an underlying medical condition. It can also be something which affects your confidence and mental health – but there is something which can be done to restore your hair permanently.

EMA is proud to offer Inno Aesthetics Mesotherapy for hair loss treatment. This is a Mesotherapy made for hair restoration infused with the micro-needling device Dermapen. If your looking for natural and permanent results this is your treatment.

No scars, no plugs and minimal downtime – making this an ideal treatment for anyone looking to get a quick and effective solution for hair loss.

Treatment cost is individually priced on the size of area. A course of 4 starts at £499.

# SKIN CLINIC

## CRYSTAL CLEAR COMCIT™

Changing the Face of Skincare EMA Skin Aesthetics Ltd has teamed up with one of the UK's leading anti ageing skincare brands, Crystal Clear, to offer Crystal Clear's fabulous COMCIT facials and skincare to Preston.

A celebrities' and A-listers' favourite, Crystal Clear fans include the Duchess of Cambridge, Kate Moss, Gwyneth Paltrow and Colin Firth it's the ultimate star choice for silky smooth, younger looking skin. As chemical-intensive treatments such as Botox and fillers aren't for everyone, non-surgical treatments to reduce the signs of ageing, are on the increase. Heralding this move is Crystal Clear COMCIT™, the latest age defying alternative that is the first of its kind anywhere in the world. This treatment will no doubt give you the results you desire for Anti-ageing, skin radiance giving you confidence like never before.

**My primary aim is providing my clients with outstanding results, by using the most cutting edge treatments that have been scientifically proven. I'm extremely excited to be launching Crystal Clear Comcit as the results speak for themselves. Try for yourself!**

Cryo Oxygen Microchannelling Collagen Induction Therapy is a unique, minimally invasive facial treatment that significantly reduces lines and wrinkles and rejuvenates skin texture and firmness.

It delivers cryo oxygen, skin infusion and oxygen simultaneously to the skin through tiny microneedles which create hundreds of microscopic channels in the skin, distributing the powerful rejuvenation actives into the deeper layers of the skin where ageing begins. The Crystal Clear COMCIT facial treatment is painless, with no downtime and takes just 45 minutes. Results are immediate thanks to the simultaneous action of the four rejuvenation technologies. Skin emerges beautifully plumped, tauter and more hydrated. EMA Skin Aesthetics Ltd is also offering the Crystal Clear Skincare range. Using science based ingredients, peptides at high percentages and crushed precious stones. Crystal Clear Skincare targets a range of skin concerns from anti-ageing, to problematic and sensitive skin, with a variety of products for the face and body.

A course of between 6 is recommended with approximately 2 week intervals.

## SKIN CLINIC

### CRYSTAL CLEAR OXYGEN THERAPY

An innovative and beautifying facial. Skin restructuring serums are delivered deep into the skin's layers using highly pressurised jets of refreshing oxygen, which gives a cooling sensation to tired, congested skin and produces a clearer, healthier and more youthful-looking complexion.

As we age oxygen levels in the skin decrease, resulting in the loss of elasticity and the formation of lines and wrinkles. So together, the intensity of the oxygen pressure and the active ingredients of the serums can help to improve elasticity and firmness of the skin. Crystal Clear Oxygen Therapy leaves skin positively glowing, not only that, but its anti-bacterial properties make it an excellent treatment for blemish prone skin too.

### MICRODERMABRASION

Crystal Clear Microdermabrasion uses ultra-fine diamond-hard aluminium oxide crystals to buff and polish the skin, gently removing dead skin cells layer by layer. The crystals are then vacuumed back up along with the exfoliated layers of skin, encouraging collagen re-growth, boosting circulation and improving lymphatic drainage along the way.

The gentle vacuum action also achieves an immediate lifting effect on tired muscles so skin looks instantly rejuvenated. With none of the downside of invasive treatments, Crystal Clear Microdermabrasion instantly improves the texture of the skin and works on removing fine lines and wrinkles, clearing blocked pores, acne scarring, refining sun-damaged, ageing skin and as a beauty flash treatment for dull, tired-looking complexions.

# BEAUTY CLINIC

## LASER HAIR REMOVAL

Light pulses penetrate the skin and are absorbed by the melanin (pigment) that is present in the hair.

The heat produced by the light destroys the hair follicles, causing the hair to fall out. Over a course of treatments with the Forma IPL, this can result in permanent hair removal. This is one of the most effective and pain free treatments available.

Treatment areas include: Lip, Top lip & chin, Neck, Underarms, Bikini, Shoulder blades, Brazilian, Lower or upper arms, Abdomen, Shoulder, Upper or lower face, Chest, Buttocks, Half back, Hollywood (including perianal), Bikini & underarms, Brazilian & underarms, Full face, Lower legs, Full arms, Full back, Full face & front neck, Hollywood & underarms, Thighs, Full legs, Full back & shoulders, Brazilian & underarms & lower legs, Brazilian & underarms & full leg & lip

# FULL TREATMENT MENU

## PLASMA PEN

Non surgical alternative to tighten and lift the skin, reduce wrinkles and expression lines. In the past if you were unhappy with the skin around your eyes (including lid), neck, jowls, forehead, mouth or chin your only option was invasive surgery, Botox or fillers. This is no longer the case. Plasma pen will give you the results you desire with results that last up to 3years.

**Cost is per area from £250**

## EMA MILLION DOLLAR FACIAL

If you want total skin confidence look no further this is the treatment for you absolutely remarkable results....

Includes. Dermaplane, Chemical Peel, Mesotherapy with Micro needling, Collagen, Elastin and Hyaluronic infusions massaged deeply into the skin, Intense lifting Eye, Face and Neck Mask followed by – Hydrogel Intense Collagen Mask. To finish, the Opera Mask.

Perfected to deliver Million Dollar Results!

Eliminates fine lines and wrinkles, lifts and firms, lightens age spots and pigmentation, minimises pores, achieves a youthful complexion for all skins.

Results - instant and you will continue to achieve results for up to a month after the facial.

**£285**

## EMA INTERCEL FACIAL TREATMENT

A state of the art, non-surgical treatment for tightening and firming skin and reducing the appearance of wrinkles without the down time associated with laser resurfacing or surgical facelift

It combines radio frequency technology, microneedling, chemical peel and opera LED therapy, all in one simple procedure. The body's natural healing process produces a new, healthy and tighter skin structure in the treated area and the surrounding skin. Incredible treatment for truly youthful flawless skin.

**£299 per treatment**

## Dermapen™ Mesotherapy

An ideal treatment for. Extreme Anti Ageing, Skin Rejuvenation, Collagen Induction Therapy, Sun Damage, Roseacea, Problematic Enlarged Pores, Scarring, Brightening, Dehydration, Fine lines/wrinkles, Pigmentation, Stretch scars. A course of between 4 – 6 is recommended with approximately 4 week intervals.

L.A facelift ( Freddy Felix Technique) Your final results will be a fresher, more youthful face and neck appearance, with an amazing, natural lift.	<b>£250.00</b>
Dermapen – per treatment	<b>£150.00</b>
Mesotherapy – per treatment	<b>£175.00</b>
Mesotherapy with Peel – per treatment	<b>£195.00</b>
Dermapen Body Correction – per treatment	<b>£150.00</b>

Please note that deposits are non-refundable and allow 48 hours' notice to cancel or reschedule any appointment, to avoid a 50% cancellation fee.

## IPL PHOTO-REJUVENATION

### Rosacea Treatment

Rosacea will have visible signs of facial erythema (redness) and visible capillaries normally formed around the nose and cheek area. IPL treatment will help to reduce the erythema and cauterise the broken capillaries. The light treatment helps to strengthen the skin and improve the skin tone.

**Prices start from £65 depending on the size of the area**

### Thread Veins Treatment

Veins with faulty valves allow some blood vessels to escape into capillaries, forming thread veins. Light is absorbed from IPL by blood vessels which breaks down the vessel walls. This is an effective treatment that allows the thread veins to collapse. The vessel will blur and gradually fade away.

**Prices start from £65 depending on the size of the area**

### Acne Scarring Treatment

Acne is caused by hormone imbalance and bacterial over production of sebum on the skin. IPL will reduce the erythema and inflammation of the skin by promoting the collagen. The treatment will also leave an anti-bacterial layer on the skin.

**Prices start from £55 depending on the size of the area.**

## FACIALS

### Caviar Therapy Facial

A Powerful, Anti Ageing & Firming Facial, which reinforces the skin with the essential nourishing ingredients needed to preserve the integrity of our skin cells. Treatment Time. 60 minutes

## MICROBLADING

### What is Microblading?

You've probably heard the term 'microblading' quite often lately. A popular headline topic in the glossy magazines, and the go-to treatment of choice for celebrities and those of us who want gorgeously defined brows that will never smudge.

Microblading is a popular treatment at our clinics in Northern England. It's the perfect choice whether your brows are sparse from years of plucking, or you simply love the look of a fuller brow with minimal effort.

But what exactly is it? Microblading is a form of cosmetic tattooing, but rather than a traditional cosmetic tattoo machine, a manual handheld tool which contains tiny needle is used to complete the procedure .

### Why choose Microblading?

#### Save on time

A form of cosmetic tattooing where we use an manual hand-held tool to implant award winning KB Pro® pigments into the skin. Mimicking natural brow hairs, we create the most realistic, long-lasting results.

#### Confidence boost

Microblading is a huge confidence booster for anybody who has struggled trying to disguise over plucked brows or natural hair-loss over the years. It can make a dramatic difference to self esteem.

#### Who is Microblading for?

Microblading is for both women and men – it's a common misconception that permanent make-up is only for women!

Whatever your concern, we welcome you to speak to our friendly team who will be able to discuss how we can make a positive difference in your life with our Microblading treatments

Microblading (Semi-permanent)	<b>£180.00</b>
Blade and Shade	<b>£200.00</b>
