SKIN AESTHETICS

BEAUTIFUL REVEALED

INTRODUCTION

Emma Marie Angela Pearce (EMA) is the founder and Director of EMA Skin Aesthetics, Preston. EMA Skin Aesthetics has been established in 2016 and is a leading skin clinic in Lancashire, specialising in all of the industries newest non invasive treatments and pioneering technologies.

Through a career of over 20 years Emma has received the most advanced training, qualifications and experience in skin aesthetics globally. Emma is considered as highly qualified Aesthetic Skin Specialist with extensive qualifications in the industry.

Emma started her career with one of the most pioneering companies in the industry, Steiner the on board Spa Company. She has achieved an outstanding career for this company for over 10 years. Initially working as a skin specialist and then setting up and running the spas as spa manager for 9 years on the most Prestigious cruise lines. Successfully progressing to a leading Spa Manager of the company.

Emma then went onto open EMA Skin Aesthetics. Emma prides in providing non invasive skin treatments that achieve a transformative results for all skin concerns without the need for resorting to invasive treatments and prescriptions. Emma has positively transformed thousands of lives over the years at EMA due to excelling in results, affectively treating skin conditions, whilst always going above and beyond for every client.

Emma's primary aim is to enable her client's to look and feel confident about their appearance. Emma's clinical and skin beauty commitment to her clients is achieving timeless, astounding results through administering scientifically proven and pioneering cutting edge treatments. Each client receives their own personalised, unique treatment plans to achieve their desired results of perfection, along with clinical grade skin care. Her high level of expertise allows each client to have impeccable results.

The clinic also provides a tranquil, private retreat and escape to bliss for all clients with a relaxing, calming and chic atmosphere to enjoy all treatments.

SKIN CLINIC

PLASMA PEN™

Plasma Pen™ Is The Non-Surgical Solution to Lift, Tighten & Shrink Excess Skin

The Plasma Pen is the newest cosmetic procedure to combat wrinkles, loss of collagen, and sagging skin and is now available at EMA Skin Aesthetics in Preston. It is a 'soft-surgery' procedure targeting a wide variety of skin conditions including loss of elasticity, sagging, and wrinkles that have been traditionally treated with fillers or plastic surgery.

Most common treatable areas include:

- Eye Bags & Lids
- Crow's Feet
- Marionette Lines
- Smile Lines / Lip Lines
- Jowl Lines
- Cheek Lift
- Neck Lift
- Forehead Lines
- Acne Scarring
- Tummy Lift
- Scar Tissue
- Skin Tag Removal
- Moles
- Dermatosis Papilosa
- Loose or Sagging Skin
- Loss of Skin Elasticity

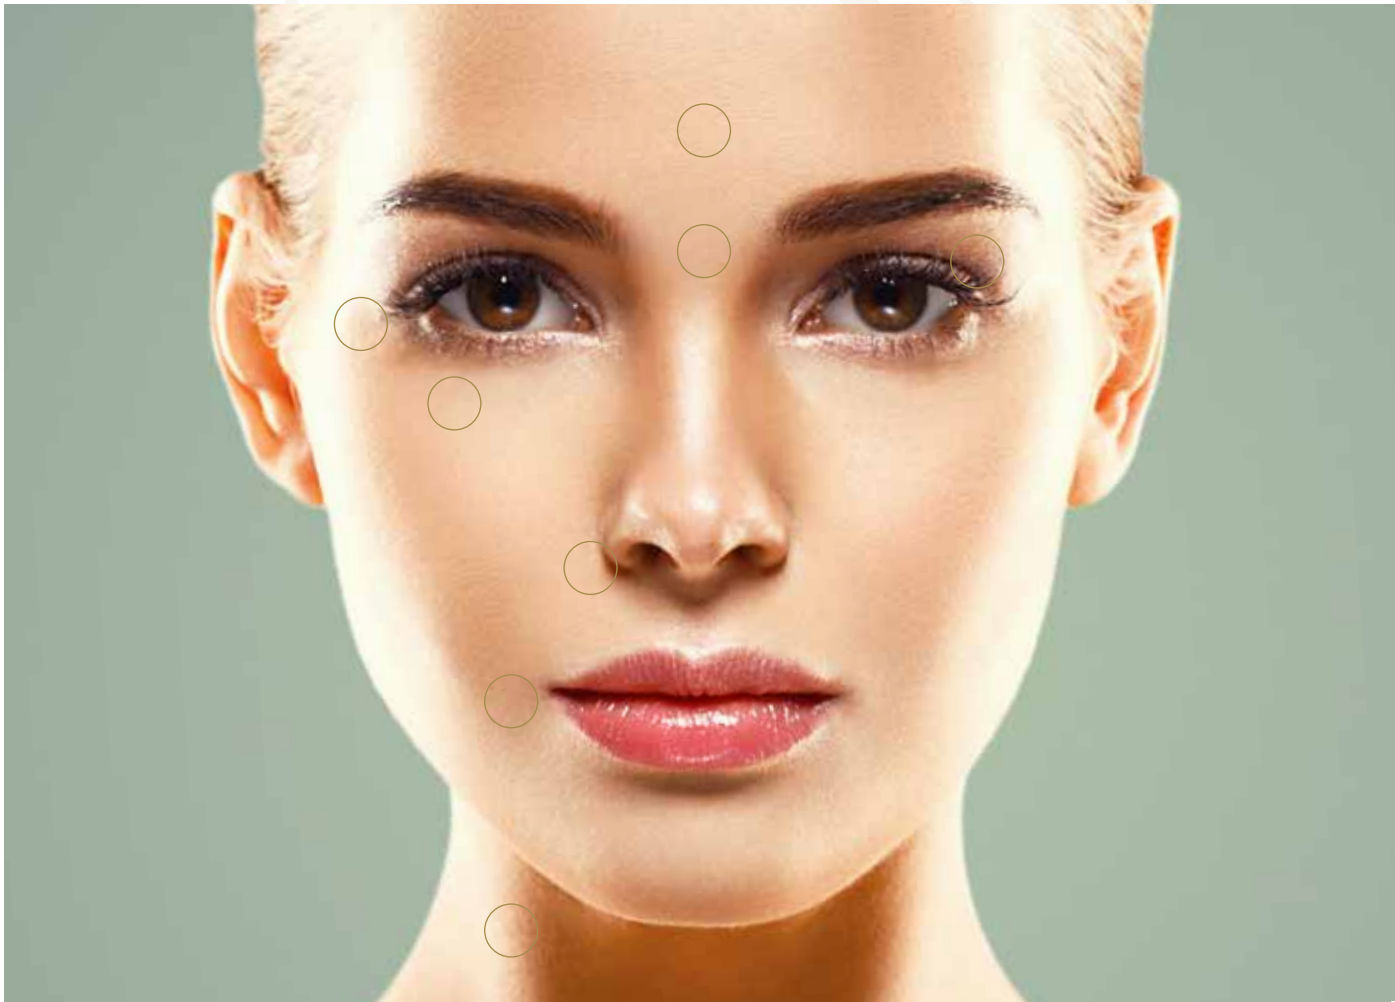

How plasma treatments affect the skin

As we age, collagen production slows, weakening the skin's structure, resulting in lines, wrinkles, and sagging. Plasma Pen™ counteracts this by rebuilding and strengthening fibroblasts, restoring the skin's youthful support structure for results lasting up to three years. Using advanced nitrogen plasma energy, the Plasma Pen™ heats and disrupts the dermal layer, stimulating cell regeneration and firming the skin while keeping your natural look.

Typically, results are achieved in one treatment with 5-7 days of downtime. Plasma Pen™ is also an ethical, effective solution for removing lesions such as moles, skin tags, and dermatosis papilosa, making it a quick, versatile option in advanced aesthetics.

Results desired are usually achieved with just one treatment. 5-7 days downtime usually experienced with this treatment, however provides long lasting results of up to 3 years.

Prices From: £250 depending on treatment areas

NEW ELECTROMAGNETIC & RADIO FREQUENCY NON INASIVE FACE LIFT.

EMA Aesthetics is driving the market forward with a new revolutionary machine that is changing the way our faces age with a new, non-surgical facelift.

EMA Aesthetics' new revolutionary magnetic facelift machine uses two modalities, one is electromagnet field technology that will stimulate the facial muscles and the other is radio frequency which uses thermal technology to increase collagen and elastin. This is the only non-invasive device that smooths out irregularities and wrinkles and elevates the structure of the face to provide a facelift affect. This new magnetic technology wipes away the need or want for the common invasive quick fixes. It is the top treatment in the industry to lift the sag and droopiness caused by ageing and lifestyle.

How it works:

The high-intensity pulse magnetic (high pulse) technology restores and enhances the support of facial tissues by selectively contracting muscles and increasing the density and quality of muscle structures. Therefore resulting in face lift benefits.

The state-of-the-art facial technology uses magnetic face synchronised thermal energy (heat energy) to reshape and smooth the skin by heating the dermis and increasing the level of collagen and elastin fibres. This smooths out fine lines and wrinkles resulting in a more youthful skin.

The results:

- Lifts and contours the face, resulting in a more youthful you.
- Smooths out fine lines and deep expression lines.
- Achieves definition to the face again that you lose with age.

The overwhelming benefits:

- Non surgical face lift that truly rewinds the clock to a more youthful you.
- Fewer fine lines and wrinkles.
- No downtime.
- Results last up to three years.

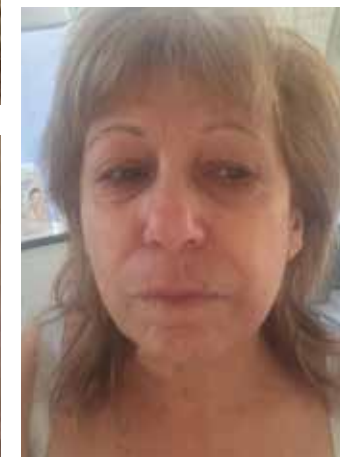

A course of 4 - 8 treatments will be required, the number will be dependant on each clients skin condition and desired expectations of the treatment results wanted. This will be determined on your initial complementary consultation with Emma. The interval between treatments will be 1-2 weeks apart. Achieves long lasting natural results. No downtime experienced with this treatment.

Prices and Treatment Courses from: £120 depending on mls quantity required.

WHAT CLIENTS SAY...

"Absolutely delighted with my results so far. Emma listened to my concerns and considered my need for no downtime and recommended the new non-surgical face lift. I've had a course of four treatments and I'm already happy and there is still two months of results to come. Thank-you Emma."

Julie F.

SKIN CLINIC

HyaPenPro™ NON SURGICAL LIP FILLER

The ideal non surgical volumiser for lips and mouth region of the face.

Its all without needles & delivered with absolute precision thanks to our 7 exclusive variable pressure settings. With unique and adjustable dosage actuations which ensures a fuller more natural lip enhancement.

Injectables are great. However, they can come with many downsides & complications not possible with HyaPenPro. They traumatize the skin & tissue and carry much more risk. The super-even distribution of filler product with HyaPenPro is vastly more uniform compared to injectable product, we prevent product wastage by design & ensure accurate volumes are delivered during any procedure.

Our results are much more representative & immediate due to the comparable lack of swelling & filler product spreads and settles within 2 – 5 days compared to up to 20 days with injectables. Because we only deliver product to the dermal layer - without a needle - then, in most territories; medics and non-medics can use HyaPenPro. We deliver product accurately, safely & with little-to-no swelling, pain, discomfort or bleeding & virtually no side-effects, social downtime or fuss.

Lip Volume

Marionette Lines

Smile Lines

Lip Lines

Nasal Labials

Smokers Lines

Hyaluronic acid is the most hydrating substance in our body. It gives our skin the moisture levels required for youthful hydration and texture. It's highly versatile plus it's proven and natural. Since the human body naturally produces HA then it's impossible for anyone to have an allergic reaction to it. There are many types of filler but hyaluronic acid dermal fillers are used in >90% of all treatments thanks to its absolute safety, easy distribution and many other benefits including its vibrancy, biocompatibility, reversibility & antioxidant properties.

Prices From: £80

NEW ULTRA SOUND 12D HIFU

The 12D is the latest non-surgical technology using High-Intensity Focused Ultrasound (HIFU) and Micro-Macro Focused Ultrasound (MMFU) to deliver a non-invasive face, neck and body lifting treatment.

It is best known for tightening skin with optimal results and is a non-surgical and painless replacement for facelifts. It boosts collagen production giving firmer and natural rejuvenating effect to the skin.

The impressive list of benefits include:

- You're never too old to make an astounding improvement to your skin and self-confidence. And the best thing is, you can achieve this without the need for any surgery and still look like you!**
- Elimination of moderate/highly saggy skin
 - Dramatic reduction in fine lines and wrinkles
 - Tightening, lifting and contouring of facial skin and many other areas of the body
 - The body treatment eliminates cellulite and achieves inch loss
 - A safe, advanced and non-surgical treatment
 - Boost the production of collagen
 - Creates a natural rejuvenating effect
 - No needles and no downtime, therefore enabling you to go back to normal life immediately
 - Look like a younger version of yourself without the need for surgery.

The technology is unique in its ability to penetrate the dermis and the superficial muscular aponeurotic system (SMAS) layer which is deeper than all other non-invasive treatments. The SMAS layer is the same area tightened during conventional surgery, however, unlike surgery, ULTRA 12D is more affordable and requires little to no downtime.

12D Non-Surgical Face Lift and 12D body sculpting delivers exceptional results, treating the following areas:

- | | | | | |
|---------------------|---------------|-----------------|---------------|------------------------|
| • Forehead Wrinkles | • Crow's Feet | • Double chin | • Turkey Neck | • Arms (bingo wings) |
| • Frown Lines | • Fine Lines | • Sagging Skin | • Tummy | • Eliminates cellulite |
| • Brow Lift | • Smile Lines | • Neck Wrinkles | • Thighs | • Mole Removal |

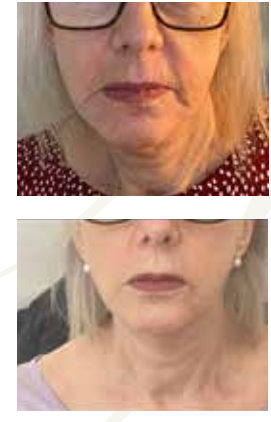

The 12D Focused Ultrasound HIFU is not only good for skin lifting and tightening; it also helps with lines, wrinkles, pores, skin tone, and laxity. Just one session can tighten and lift the skin, reduce the appearance of wrinkles and improve skin tone, providing visible results that will last up to three years.

Any areas of the body can be treated with 12D and it is highly effective for skin laxity in the stomach, hands, arms, knees and thighs.

Look younger, feel your youthful self again! With safe and effective highly advanced non-invasive new technology 12D.

1-2 Treatments required, little to no downtime experienced. Results lasting up to 2 years.

Prices From: £300 depending on treatment areas.

Result show is after 3 weeks. Full results are only after 3 months

EMA Microchanneling / Morpheus8 Fractional Radio Frequency and Microneedling Treatment

Fractional RF with microneedling - is a subdermal adipose remodelling treatment. It is a minimally-invasive treatment that combines micro-needling with radiofrequency technology.

RF Microneedling Machine procedure is minimally invasive and offers many skin rejuvenation benefits for people of all ages. It works by combining the power of microneedling and RF – radiofrequency – energy. Together, these offer amazing and visible results faster than when conducted on their own.

The fractional radiofrequency machine stimulates collagen production of the underlying layers of the dermis. This can be used on the face and body to improve lines, wrinkles and skin laxity. The device allows adjustment of energy delivered and penetration depth for treatment of fine lines, wrinkles, acne scars and skin texture. Radio frequency skin tightening, is used to deliver a non surgical face lift effect. The treatment is also a body corrective treatment for the improvement of hands, stomach, legs, arms and knees.

Our revolutionary Fractional RF treatment offers precise collagen stimulation, noticeably rejuvenating the skin. It addresses fine lines, wrinkles, and skin texture with unmatched precision. Beauty and innovation combine to offer effortlessly unveiling radiant results.

This device provides a versatile treatment that can benefit a wide range of individuals. Ideal candidates for those who are looking to:

Reduce the appearance of wrinkles and fine lines

Tighten sagging skin

Improve skin texture and tone

Minimize acne scars and stretch marks

2-3 treatments will be required, 4-6 weeks apart. The number will be dependant on each clients skin condition and desired expectations of treatment the results wanted. This will be determined on your initial complementary consultation with Emma. Results last up to 3 years. Little downtime experienced with this treatment.

Fractional RF is suitable for all skin types and can be customized to address specific concerns.
Consultation required and is complementary.

Prices From: £395 depending on treatment areas.

COOL JET™

The Cool Jet™ Plasma Pen uses a cooler atmospheric temperature so there is ZERO surface trauma unlike Fibroblast Plasma, our advanced Cool Jet™ technology combined with our new Jet Plasma Super Tip™ allows the Cool Jet™ Plasma device to effectively deliver Plasma into the dermal and subcutaneous layers of the skin which stimulates collagen production that helps re-model the cellular structure of the skin from the inside out.

Cool Jet™ is the latest technology in Jet Plasma Devices, utilising high-voltage, low atmospheric plasma temperature to increase skin elasticity whilst increasing collagen levels as it shrinks pores, brightens, tightens and purifies the epidermis.

The connective tissue is strengthened and the structure of the skin is firmed. Cool Jet™ is not only pain-free and gentle on the skin, it's also highly effective. Cool Jet™ treatments have powerful anti-aging benefits. The treatment boosts the production of new collagen and triggers epidermal regeneration, resulting in the long term benefits and giving you a more fresh and youthful appearance.

How Cool Jet™ works

The Cool Jet™ Plasma Pen uses a cooler atmospheric temperature so there is zero surface trauma unlike fibroblast plasma. Our Advanced Coollet Technology combined with our New Jet Plasma SUPER TIP allows the Cool Jet™ Device to effectively Deliver Plasma into the dermal and subcutaneous lavers of the skin that stimulates collagen production that helps re-model the cellular structure of the skin from the inside out.

How will Cool Jet™ treatments benefit you?

SKIN CLINIC

EMA FRACTIONAL FACIAL

This new fractional skin treatment is the most advanced top level aesthetic facial available today.

Combining two of the most advanced technologies to deliver truly remarkable and transformative results for your skin.

Ideal for those experiencing the following concerns:

HOW ITS WORKS

Nitrogen plasma energy transfers your personalised mesotherapy to the skin's epidermal layer, whilst also heating and disrupting the deeper dermal structure.

This micro-trauma affects the superficial epidermis, as well as a deeper zone within the dermis – particularly the fibroblasts. Rebuilding, strengthening and renewing the skin from the very core. The unique fractional and permeating tips by Plasma Pen work to evenly distribute plasma and at a lower temperature over a wider area, resulting in remarkable results. Following the fractional Plasma is dermapen mesotherapy.

Dermapen stimulates natural regeneration processes, releasing natural growth factors to stimulate reformation and deposition of fresh restructuring collagen. Combining both therapies enables to deliver truly extraordinary results transforming skin to become more youthful in every sense of the word. There is minimal to no downtime with this treatment.

Course of 4 is recommended to achieve truly revolutionary results.

Price: £299 per treatment. 20% discount available.

Sagging skin/loss of elasticity

Deep wrinkles

Expression lines

Fine lines

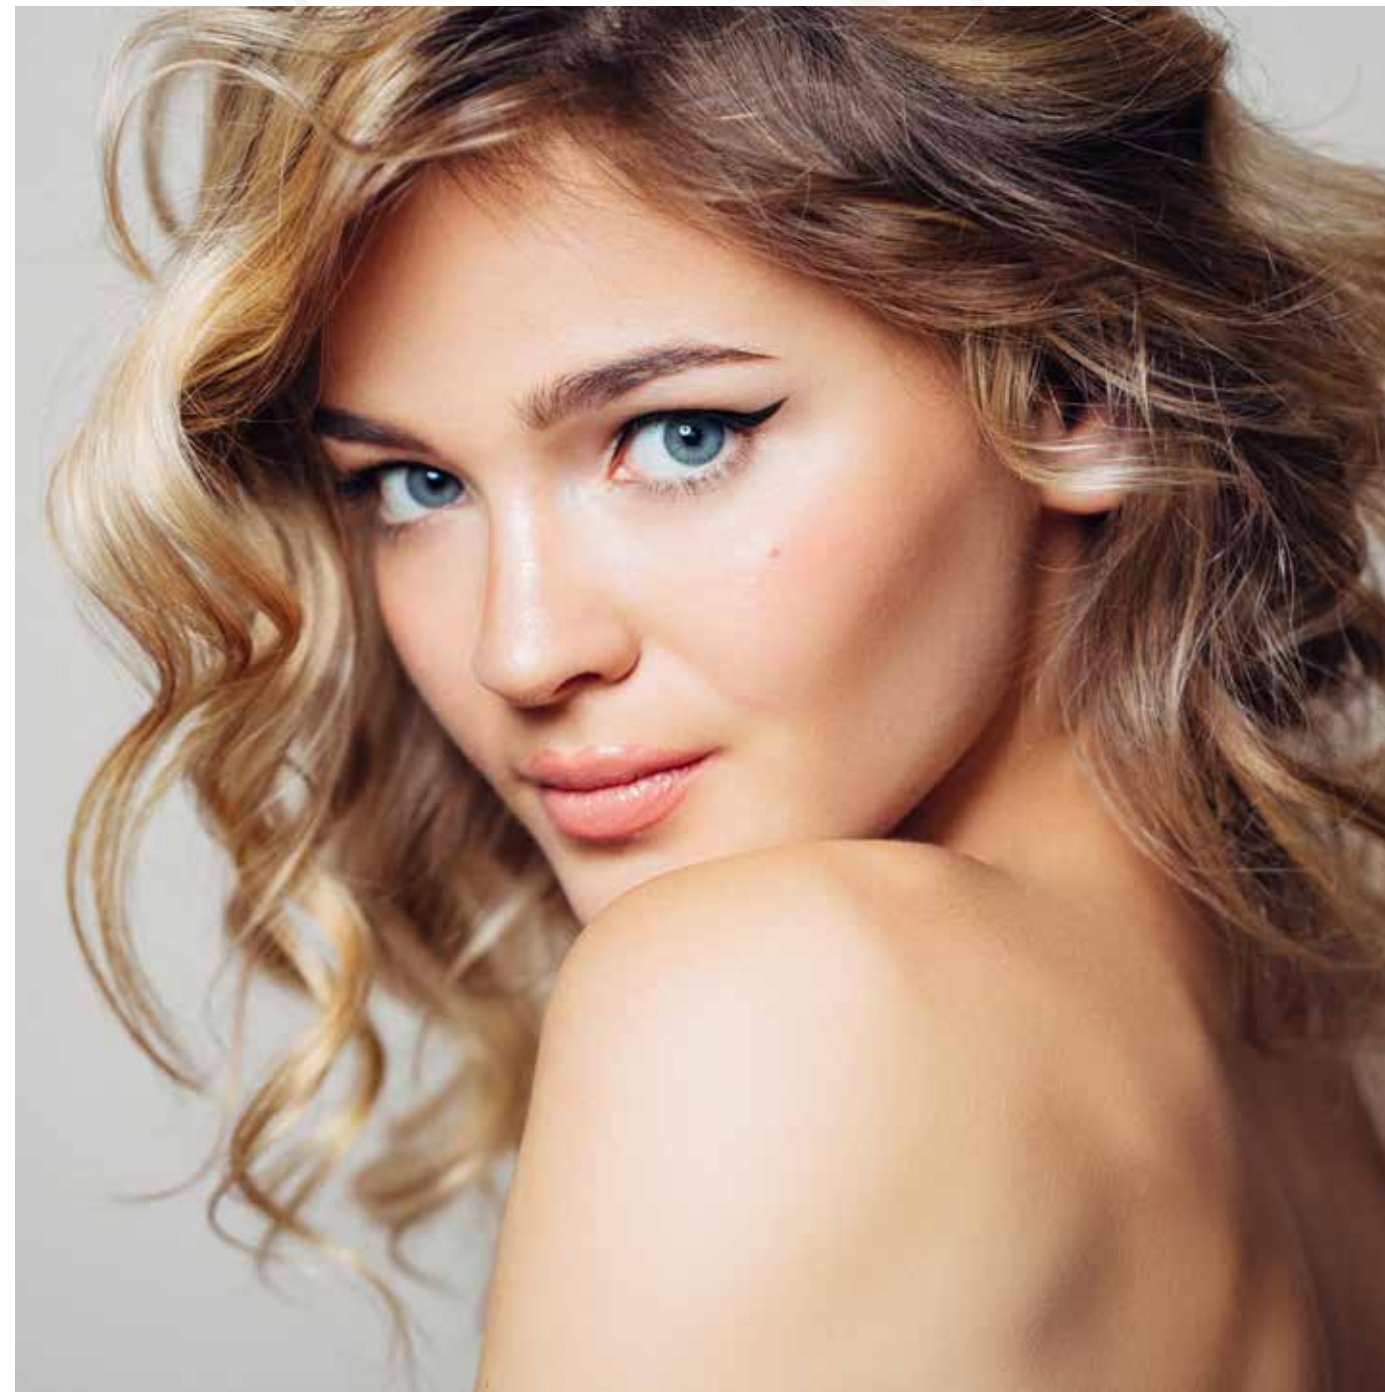

Puffy Eyes

Tired dull skin

Drooping Jowls

General unhealthy looking skin

Overall loss of a youthful skin

SKIN CLINIC

Results – instant and you will continue to achieve results for up to a month after the facial.

Price: £285

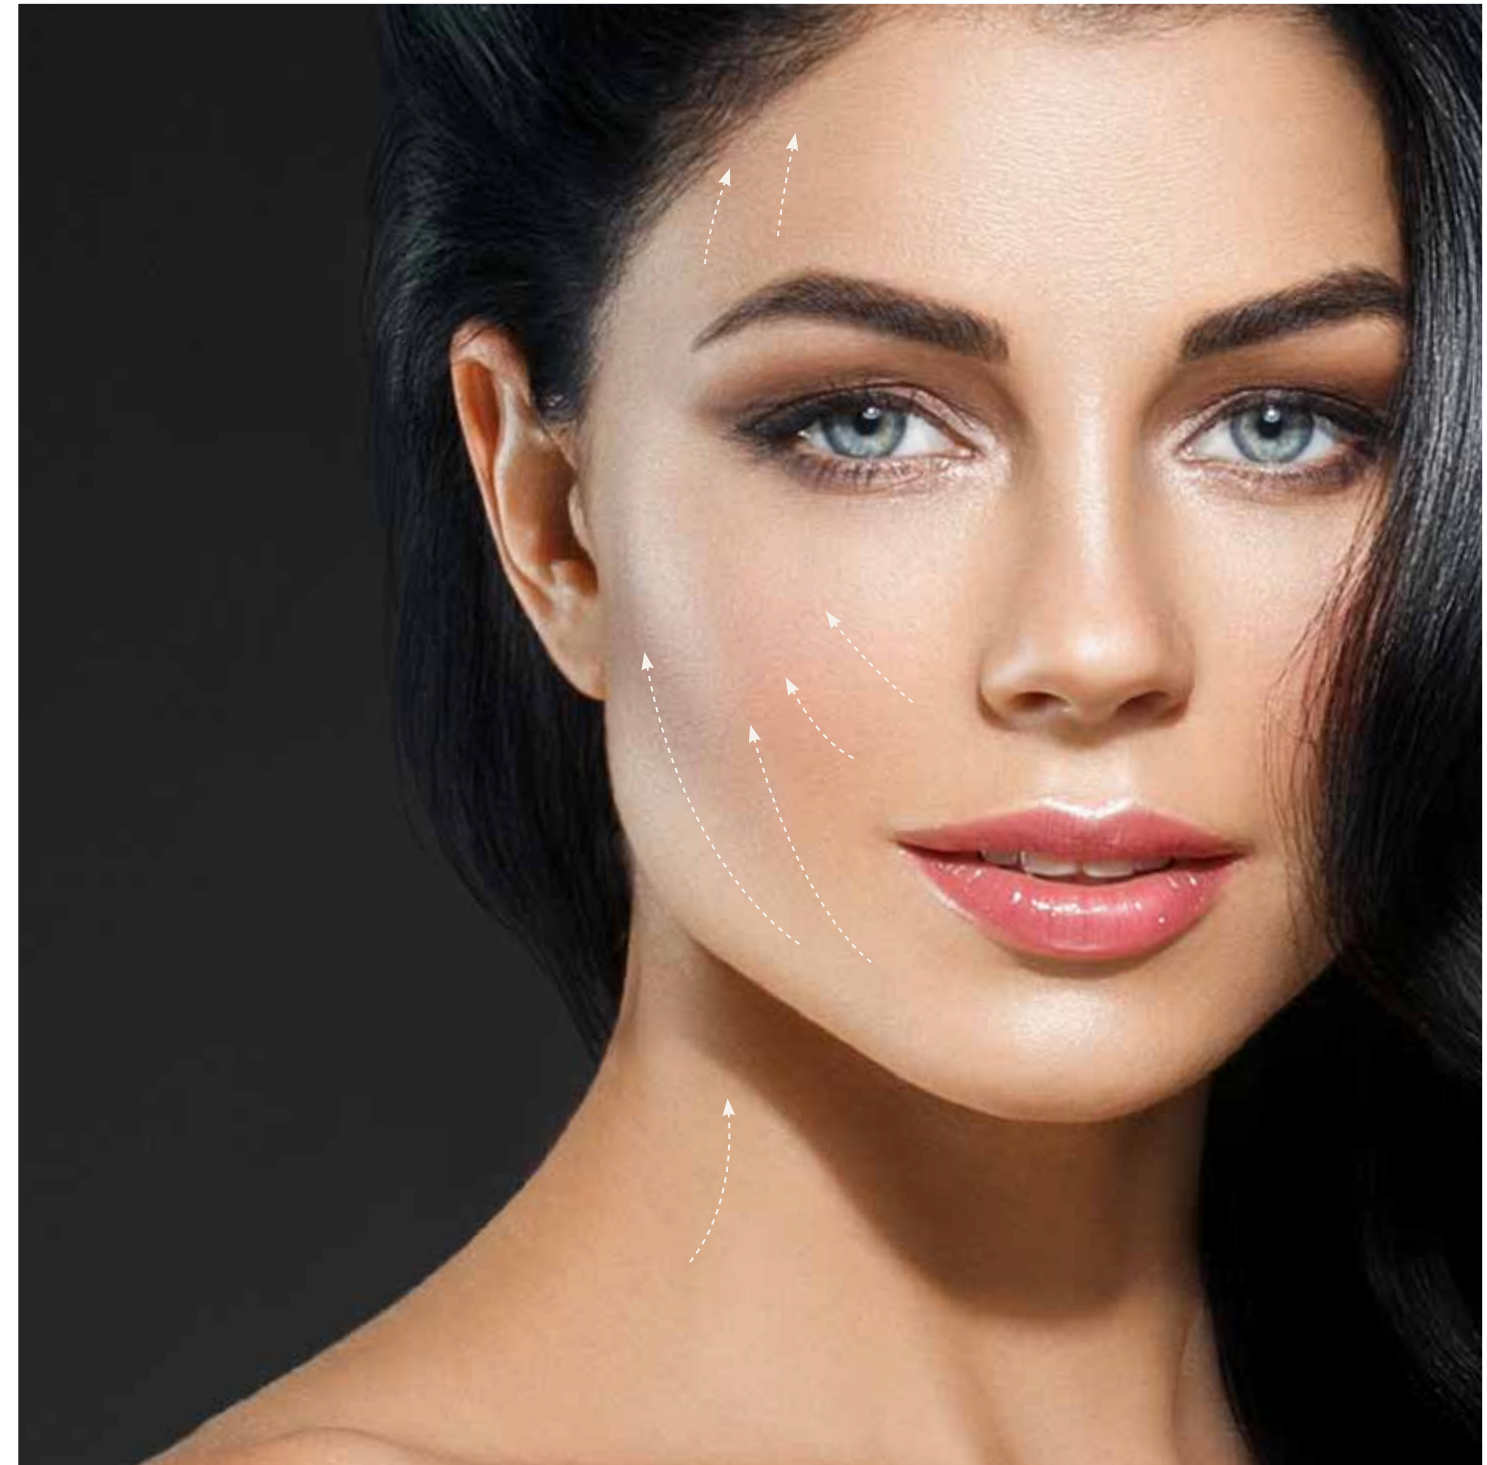

INTRACEL FACIAL

Intracel Facial Treatment is a state of the art, non-surgical treatment for tightening and firming skin and reducing the appearance of wrinkles without the down time associated with laser resurfacing or surgical facelift. Otherwise known as the Lunchtime Facelift.

It combines radio frequency technology (Amanda Holden's favourite regular treatment), microneedling, chemical peel and opera LED therapy, all in one simple procedure. The body's natural healing process produces a new, healthy and tighter skin structure in the treated area and the surrounding skin. A treatment for truly youthful flawless skin.

Course of 4 -6 recommended for optimal results. 3-4 weeks apart. Little downtime experienced with this treatment. Results last up to 18 months.

Price: £299 20% discount available on a course of 4 treatments. 0% Interest Free payment plan available.

SKIN CLINIC

DERMAPEN™ MESOTHERAPY

Mesotherapy Electric Dermapen is a breakthrough in the field of cosmetology & aesthetic medicine developed for treatment of various skin conditions. The Dermapen™ uses micro-needling technology and has a phenomenal effect on collagen and elastin rejuvenation.

Active ingredients from the mesotherapy products used are delivered to the deeper layers of the skin via the micro-channels. The small footprint of the device makes it ideal for treating hard to reach areas such as around the eyes, nose and mouth. The Dermapen™ is especially effective in the reduction of the appearance of scarring as well as the reduction of the appearance of pigmentation.

Dermapen stimulates natural regeneration processes, releasing natural growth factors to stimulate reformation and deposition of fresh restructuring collagen. Combining with Mesotherapy the results are similar to having injection fillers after just a few days. This is partly due to the use of Hyaluronic acid with mesotherapy that is actually the main ingredient to fillers. In addition other mesotherapy ingredients are infused to intensively treat other concerns you may have. Mesotherapy is a treatment that will provide you with a visible difference immediately after the treatment, and you will continue to see further phenomenal results weeks after the facial. Truly flawless results.

A course of between 4 – 6 is recommended with approximately 4 week intervals

Prices From: £195 20% discount available on a course of 4 treatments. 0% Interest Free payment plan available.

LA FACELIFT (FREDDY FELIX TECHNIQUE)

The L.A. facelift is a Freddy Felix technique; Freddy is a Los Angeles based practitioner working with high-end celebrities, with years of experience.

The procedure involves a Mesolift using the Mesotherapy treatment; achieving the desired lift involves working with the back of the neck, ears, through the hair line and through the front scalp. Overall, an increase in the production of collagen and elastin in the areas results in a natural-looking lift to the face and neck.

We recommend a minimum of 6 treatments, to be completed every 6-8 weeks.

Your final results will be a fresher, more youthful face and neck appearance, with an amazing, natural lift.

Prices From: £250 20% discount available on a course of 4 treatments. 0% Interest Free payment plan available.

SKIN CLINIC

IPL PHOTO-REJUVENATION

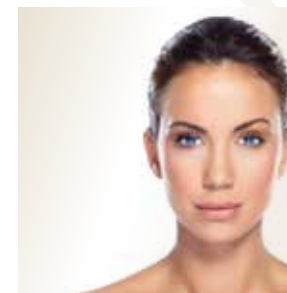

Photo-rejuvenation enables us to treat a range of skin concerns such as age and sun spots, freckles, rosacea, broken capillaries and stubborn pigmentation, the treatment delivers remarkable results.

IPL (Intense Pulsed Light) technology gently and effectively eliminates spots, discolouration, and unwanted blood vessels.

Depending on your specific concern, you can expect the session to last 15 – 45 minutes.

Prices From: £95

RESULTS YOU CAN SEE

Before and after photographs are an important part of the treatment process. It not only demonstrates to those seeking a treatment that the results are genuine – it also provides an important record for our clients. They are able to have visual 'documentation' of the positive changes – this can greatly improve an individual's perception of themselves and can be a great confidence and self esteem builder.

Forma™ treatments before and after images

FACIAL REDNESS & ROSACEA

Facial redness is a common skin alteration that can lead to severe skin conditions, such as couperose or rosacea if not treated in its early stages. Poor microcirculation, vascular alterations, and temperature fluctuations are the main triggering factors.

In-clinic treatment

The aim of this treatment is to reduce capillary fragility, improve blood flow, and combat inflammation.

We offer 2 options: A standard protocol, and an intense one for a stronger approach. The professional will choose between these two optional protocols according to the patient's needs and skin tolerance.

Standard treatment:

4 treatment sessions at 7-21 day intervals, alternating the peel and the transdermal solution every treatment.

- INNO-EXFO® Redness Peel
- INNO-TDS® Redness-ID

Both treatment cycles can be repeated after a month according to medical judgement and the patient's needs.

Overall results include:

- Eliminates and reduces skin redness and vascular spiders.
- Prevent capillary fragility.
- Protects the vascular endothelium.
- Improves skin blood flow.
- Effectively combats inflammation.
- Strengthens the extracellular matrix.
- Improves the skin barrier condition.
- Maintains hydration.
- Repairs unhealthy skin.

Follow-up at home Daily routine

The daily routine includes a soft cleanser, a cream that effectively helps to prevent and control skin redness and couperose, and broad-spectrum sunscreen SPF 50+

Prices From: £95

Intense treatment:

4 treatment sessions at 7-21 day intervals, combining the peel and the transdermal solution in the same session.

- INNO-EXFO® Redness Peel + INNO TDS® Redness-ID

Both treatment cycles can be repeated after a month according to medical judgement and the patient's needs.

THREAD VEIN REMOVAL

Laser is the optimum absorption spectrum of porphyrin vascular cells. Vascular cells absorb the high-energy laser of 980nm wavelength, solidification occurs, and finally dissipated.

How it works:

Laser can stimulate the dermal collagen growth while vascular treatment, increase epidermal thickness and density, so that the small blood vessels are no longer exposed, at the same time, the skin's elasticity and resistance is also significantly enhanced.

Prices From: £195 20% discount available on a course of 4 treatments.

0% Interest Free payment plan available.

Before

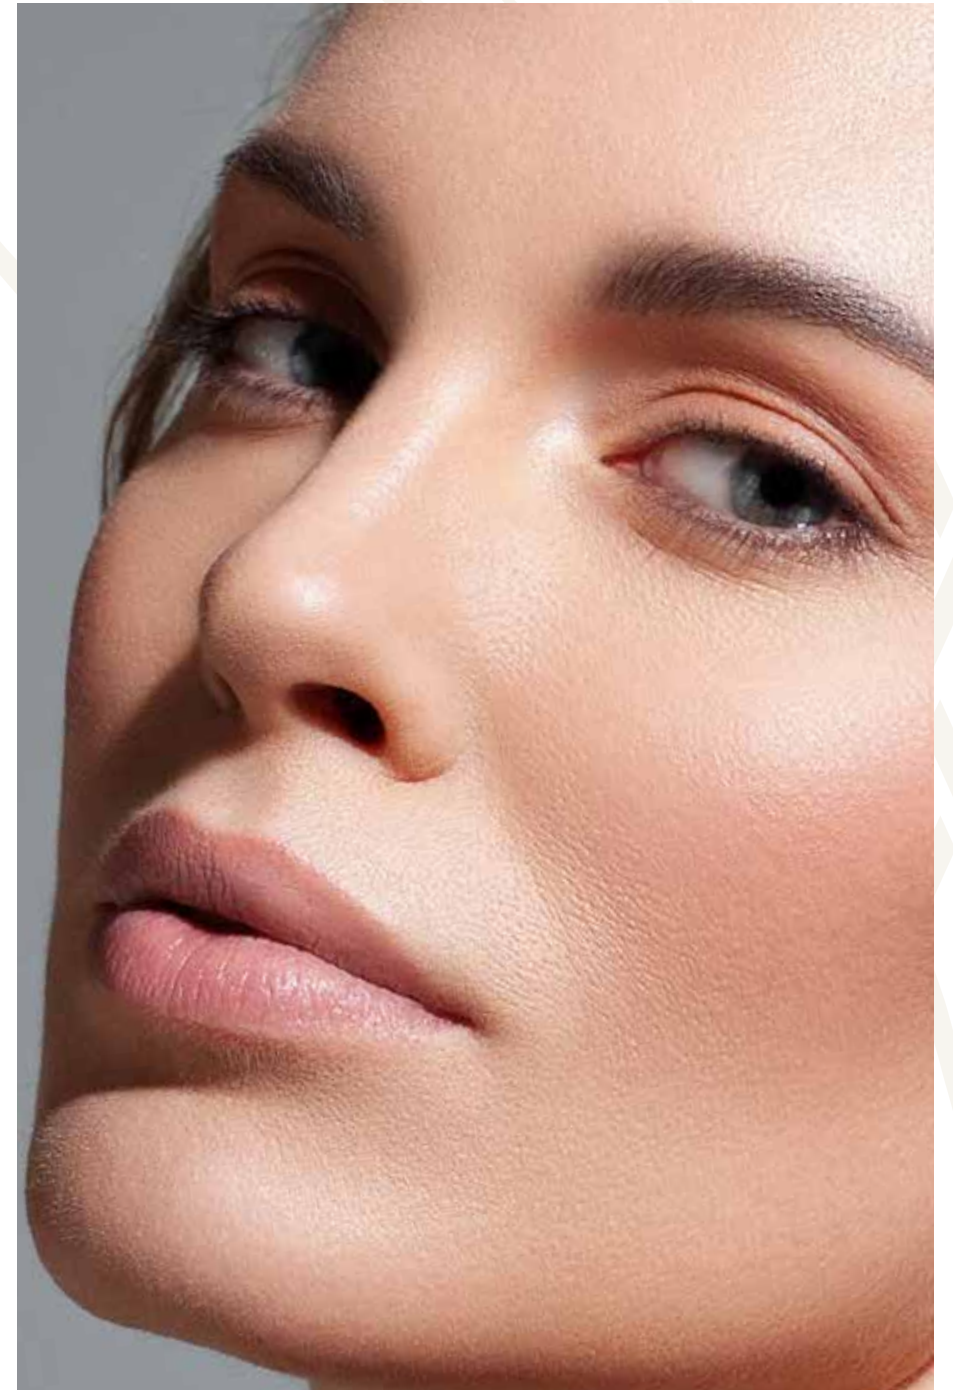

After

Finally dissipated.

Your skin will appear so much more youthful and clear following the removal of thread veins.
The results are positively transformative to your overall skin appearance and youthfulness.

Me Line Melasma

The range of Me Line treatments is the first pigmentation removal system in the world that works on specific types of pigmentation and can be used to treat most skin types, on both the face and body.

This proven stable formulation has clinical studies to back up the results:

- Excellent results in 95% of hyperpigmentation cases
- Significant reduction in fine lines in 90% of ageing skins
- 85% of acne prone skins noticed a visible improvement in breakouts
- Excellent results in 65% of melano-hematic patients

What is the Me Line treatment?

Me Line treatments can be used for all types of pigmentation, including those that have been caused by hormonal issues, sun exposure or skin trauma such as acne. What people often don't know is that we can actually treat different parts of the face and body, including under the arms, hands, knees, elbows and intimate areas.

Me Line really is a great treatment for all forms of pigmentation in all areas of the body.

Me Line can help treat:

- Solar lentigines
- Acne scarring
- Melasma
- Post-inflammatory pigmentation
- Pigmentation on both the face and body
- How does the Me Line treatment work?

Me Line treatments are usually spaced 4-6 weeks apart and involve an in-clinic peel protocol with the use of homecare products for the best possible results.

Both Me Line in-clinic treatments and home care products contain a combination of active ingredients that act on the pre-synthesis of melanin, as well as on the direct activity (synthesis) and even post-synthesis of tyrosinase. This controls the three different stages involved in the deposit of melanin on skin tissue, which leads to pigmentation and skin discolouration.

Prices From: £149

Utilising a resurfacing action and enzyme inhibitors, the treatment protocol should be followed by the use of two Me Line homecare products that work in synergy and complement the professional treatment applied by the clinician. It is essential the home care products are used in order to complete the treatment, enhance its efficacy and prolong the effects.

Is there any downtime after treatment?

Post-treatment downtime symptoms are usually experienced around two days after the Me Line treatment.

Symptoms tend to include:

- Tight and tender skin
- Dry and flaky
- Some pink and or redness that will usually subside after a few days
- Who is the treatment for?

The Me Line treatments are for anyone who suffers with pigmentation on both the face and body area.

The treatment actively targets:

- Resurfacing of the epidermis
- Reducing the appearance of pigmentation
- Prevention of further production of melanin

Treatments needed will be determined on your initial complementary consultation with Emma.

Hair Loss Mesotherapy with Dermapen

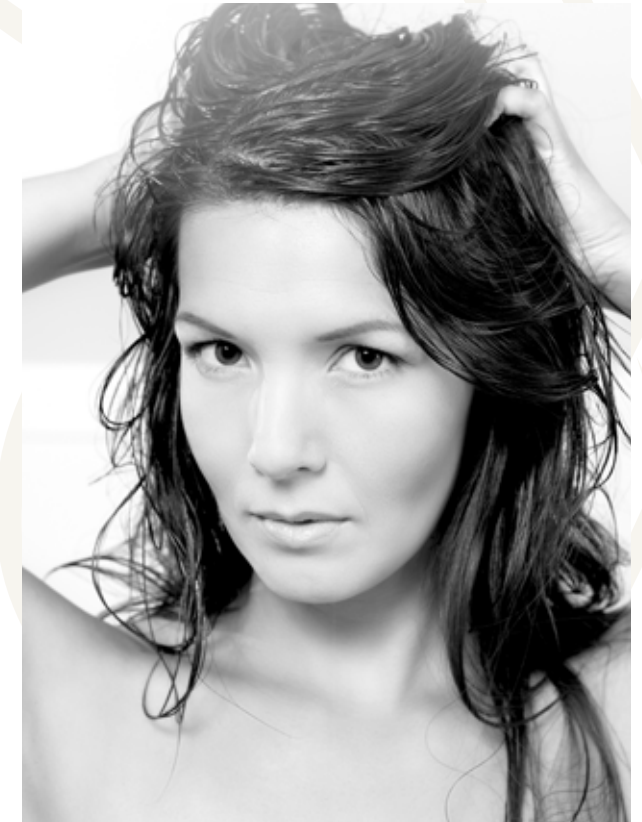

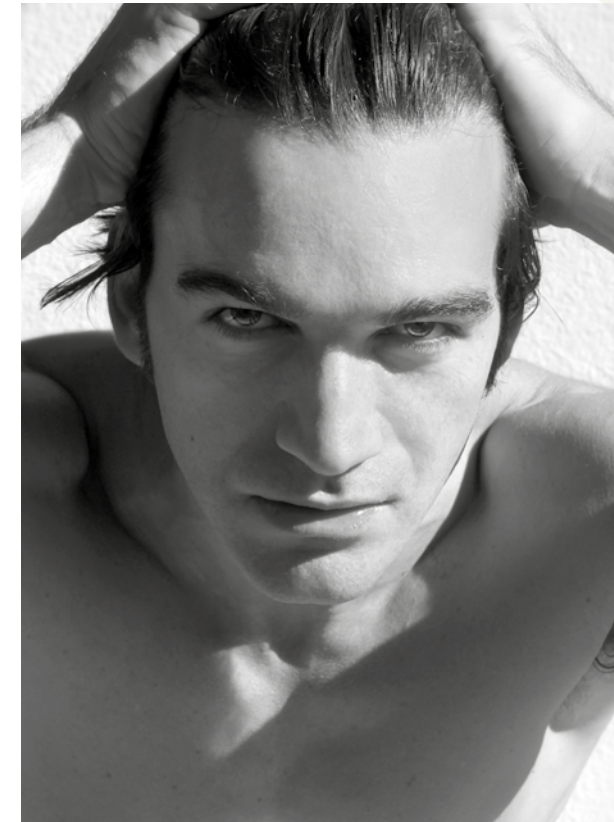

Hair loss or thinning can occur for different reasons – it can happen with age, stress or an underlying medical condition. It can also be something which affects your confidence and mental health – but there is something which can be done to restore your hair permanently.

EMA is proud to offer Inno Aesthetics Mesotherapy for hair loss treatment. This is a Mesotherapy made for hair restoration infused with the micro-needling device Dermapen. If your looking for natural and permanent results this is your treatment.

No scars, no plugs and minimal downtime – making this an ideal treatment for anyone looking to get a quick and effective solution for hair loss.

Treatment cost is individually priced on the size of area.

Prices From £179.

SKIN CLINIC

ULTIMATE FACIAL - ALL IN ONE TREATMENT

If you are looking to achieve a flawless skin, youthful appearance, skin radiance and a non surgical face lift this is the treatment for you!

Using state-of-the-art technology including Photo Rejuvenation, Diamond peel, radio frequency, and skin tightening, this non-surgical facial will remove any flaws such as thread veins pigmentation, deeply exfoliates to refresh and smooth the skin. The treatment also builds collagen and elastin whilst tightening and toning the muscles. For immediate results and younger-looking, glowing skin, look no further than this stellar facial...

Benefits

- Brighter, tighter and clear skin
- Visible results after one session
- Virtually pain-free procedure
- Intense collagen boost
- Safe alternative to a Surgical facelift
- Target work completed to eliminate thread veins, pigmentation, age spots and blemishes
- Suitable for most skin types

Prices From: £185

RADIO FREQUENCY SKIN TIGHTENING – THE LUNCH-TIME FACELIFT

Radio Frequency, which gently heats the skin and is often referred to as the lunch-time face lift due to its immediate tightening and toning effects, is then utilised as well as a micro current to stimulate existing and encourage new collagen and elastin to grow.

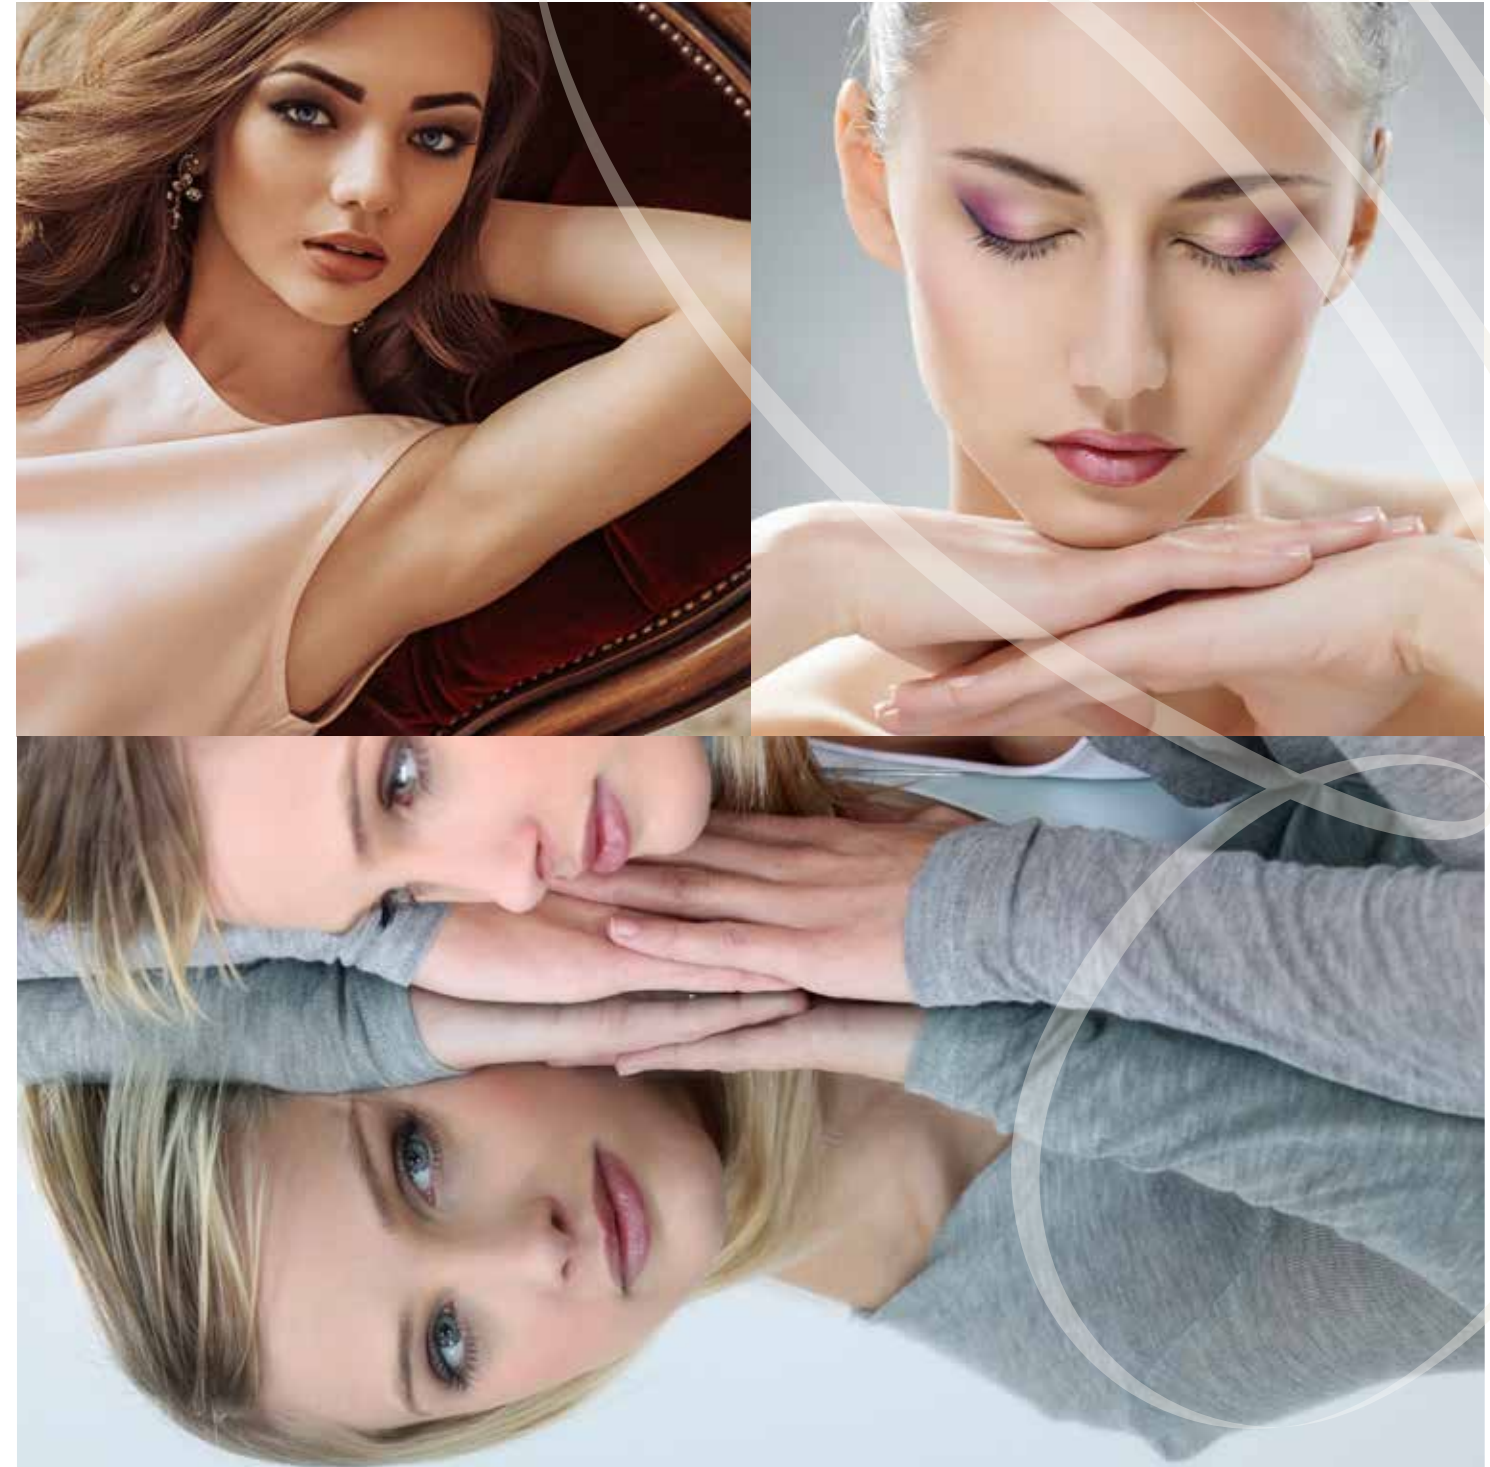

Radio Frequency is a form of heat energy that tunes into the superficial layer of the skin, gently heating the dermis and causing new collagen growth deep within the dermal layer.

This also results in further tightening and toning. All of these elements combined will reverse the signs of ageing, promote skin tightening and ensure an overall youthful complexion.

Course of 4 – 6 recommended for optimal results. 3-4 weeks apart. No downtime experienced with this treatment. Results last up to 18 months.

Prices From: £120 20% discount available on a course of 4 treatments. 0% Interest Free payment plan available.

SKIN CLINIC

CRYSTAL CLEAR COMCIT™

Changing the Face of Skincare EMA Skin Aesthetics Ltd has teamed up with one of the UK's leading anti ageing skincare brands, Crystal Clear, to offer Crystal Clear's fabulous COMCIT facials and skincare to Preston.

A celebrities' and A-listers' favourite, Crystal Clear fans include the Duchess of Cambridge, Kate Moss, Gwyneth Paltrow and Colin Firth it's the ultimate star choice for silky smooth, younger looking skin. As chemical-intensive treatments such as Botox and fillers aren't for everyone, non-surgical treatments to reduce the signs of ageing, are on the increase. Heralding this move is Crystal Clear COMCIT™, the latest age defying alternative that is the first of its kind anywhere in the world. This treatment will no doubt give you the results you desire for Anti-ageing, skin radiance giving you confidence like never before.

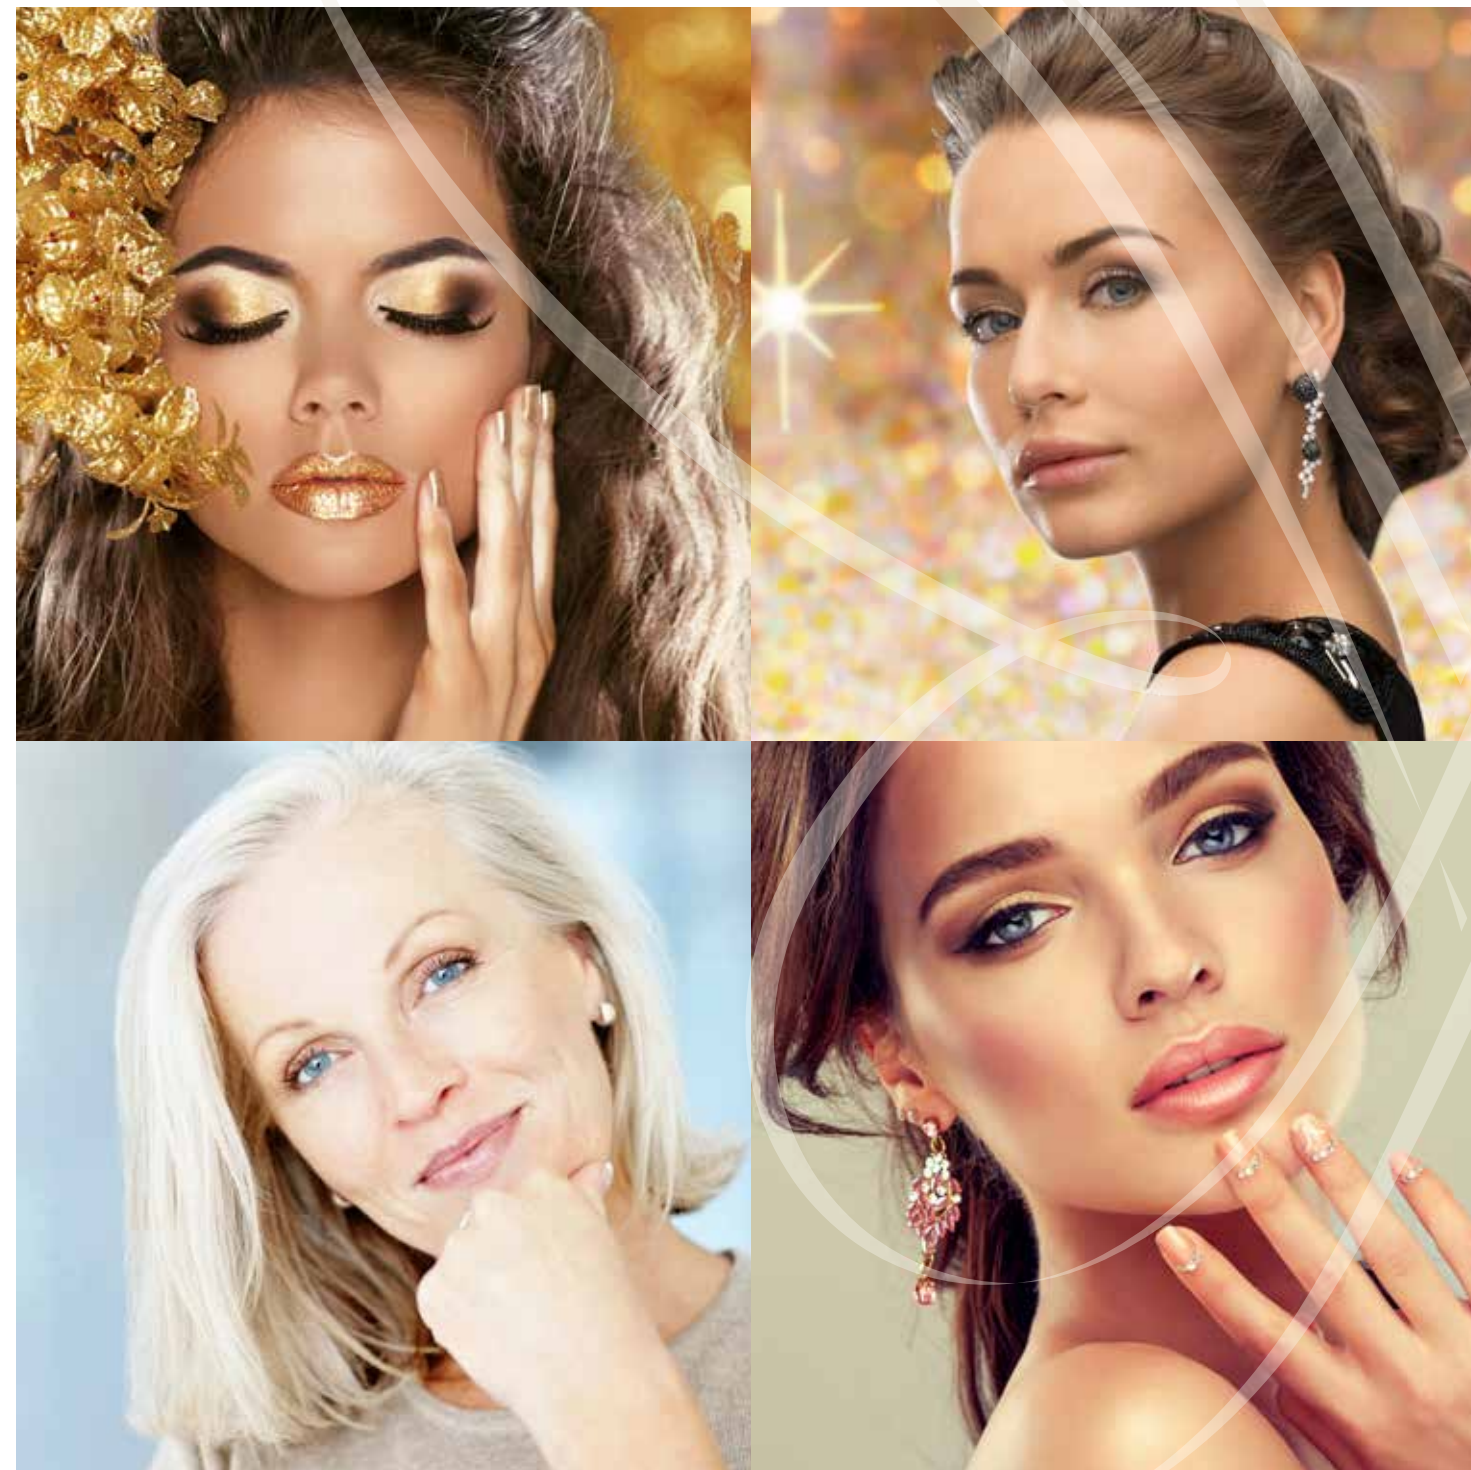

My primary aim is providing my clients with outstanding results, by using the most cutting edge treatments that have been scientifically proven. I'm extremely excited to be launching Crystal Clear Comcit as the results speak for themselves. Try for yourself!

Cryo Oxygen Microchannelling Collagen Induction Therapy is a unique, minimally invasive facial treatment that significantly reduces lines and wrinkles and rejuvenates skin texture and firmness.

It delivers cryo oxygen, skin infusion and oxygen simultaneously to the skin through tiny microneedles which create hundreds of microscopic channels in the skin, distributing the powerful rejuvenation actives into the deeper layers of the skin where ageing begins. The Crystal Clear COMCIT facial treatment is painless, with no downtime and takes just 45 minutes. Results are immediate thanks to the simultaneous action of the four rejuvenation technologies. Skin emerges beautifully plumped, tauter and more hydrated. EMA Skin Aesthetics Ltd is also offering the Crystal Clear Skincare range. Using science based ingredients, peptides at high percentages and crushed precious stones. Crystal Clear Skincare targets a range of skin concerns from anti-aging, to problematic and sensitive skin, with a variety of products for the face and body.

A course of between 6 is recommended with approximately 2 week intervals.

Prices From: £115

SKIN CLINIC

CRYSTAL CLEAR OXYGEN THERAPY

An innovative and beautifying facial. Skin restructuring serums are delivered deep into the skin's layers using highly pressurised jets of refreshing oxygen, which gives a cooling sensation to tired, congested skin and produces a clearer, healthier and more youthful-looking complexion.

As we age oxygen levels in the skin decrease, resulting in the loss of elasticity and the formation of lines and wrinkles. So together, the intensity of the oxygen pressure and the active ingredients of the serums can help to improve elasticity and firmness of the skin. Crystal Clear Oxygen Therapy leaves skin positively glowing, not only that, but its anti-bacterial properties make it an excellent treatment for blemish prone skin too.

Prices From: £85

MICRODERMABRASION

Crystal Clear Microdermabrasion uses ultra-fine diamond-hard aluminium oxide crystals to buff and polish the skin, gently removing dead skin cells layer by layer. The crystals are then vacuumed back up along with the exfoliated layers of skin, encouraging collagen re-growth, boosting circulation and improving lymphatic drainage along the way.

The gentle vacuum action also achieves an immediate lifting effect on tired muscles so skin looks instantly rejuvenated. With none of the downside of invasive treatments, Crystal Clear Microdermabrasion instantly improves the texture of the skin and works on removing fine lines and wrinkles, clearing blocked pores, acne scarring, refining sun-damaged, ageing skin and as a beauty flash treatment for dull, tired-looking complexions.

Prices From: £65

SKIN CLINIC

FAT AND CELLULITE REMOVAL

There are two leading Fat Removal & Cellulite treatments, Mesotherapy and Ultrasound 7D. Most treatments available today will only help reduce fat.

With these treatments not only do you reduce fat in your concerned areas you also eliminate any cellulite, tighten loose skin and the results are long lasting results.

Mesotherapy with the Dermapen™ uses micro-needling technology and has a phenomenal effect on collagen and elastin rejuvenation, the active ingredients from the mesotherapy products used are delivered to the deeper layers of the skin via the microchannels. A cocktail of active ingredients acting in synergy against localised fat, cellulite and looseness. The cocktail of ingredients also help to reduce swelling, promote lipolysis, and increase collagen production. Truly flawless results. Mesotherapy fat and cellulite treatment will provide you with a visible difference after just 14 days, and you will continue to see further phenomenal results weeks after.

The Ultrasound 7D works by reducing the localised fat, then fat cells break apart from each other and are dislodged from your dermal layers. After a few days the fat cells are absorbed by your lymphatic system and drained as waste from your body.

On consultation the best course of treatment will be advised in order to achieve optimal results and achieve your desired expectations.

Complementary consultations are recommended to ensure you receive your desired results! Dependant on the treatment you will need the treatment course will be from 2 treatments to six treatments.

Prices From: £150

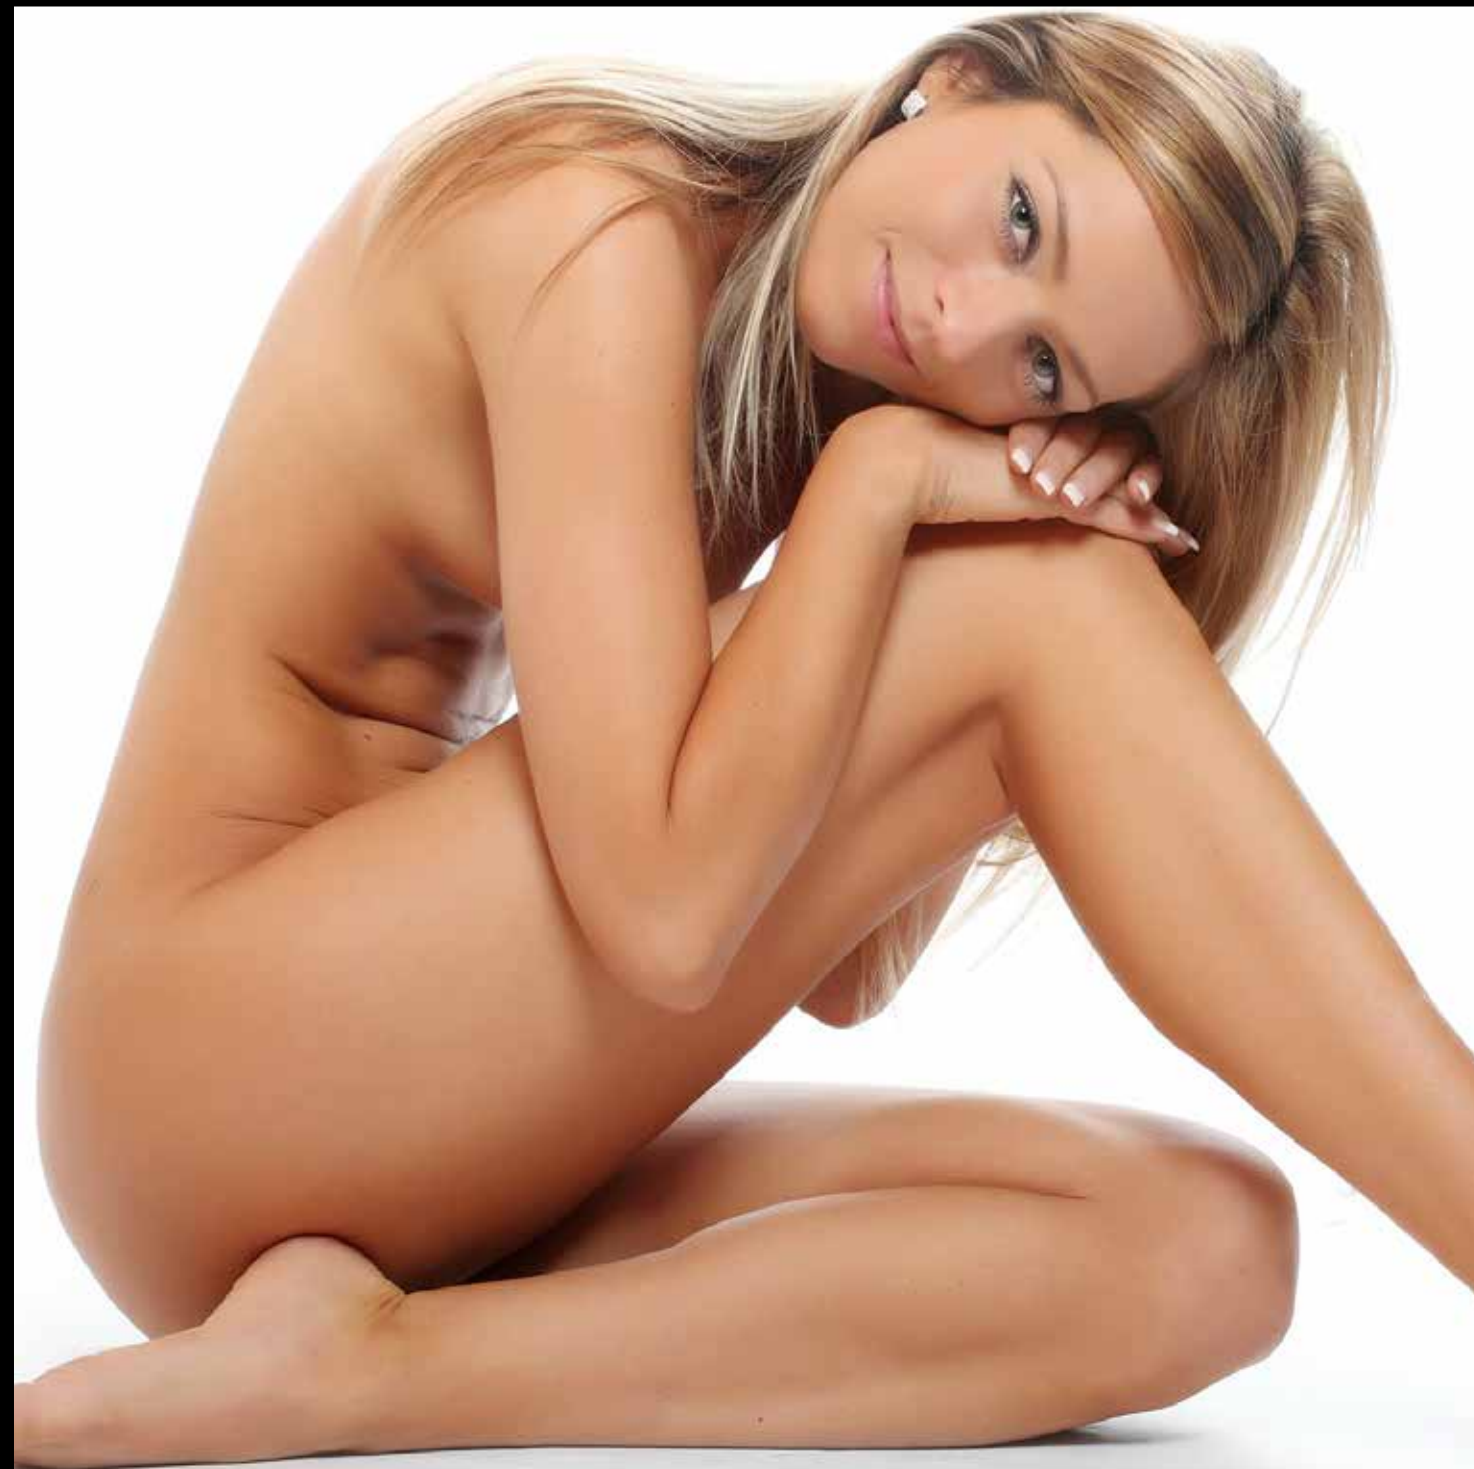

BEAUTY CLINIC

LASER HAIR REMOVAL

Light pulses penetrate the skin and are absorbed by the melanin (pigment) that is present in the hair.

The heat produced by the light destroys the hair follicles, causing the hair to fall out. Over a course of treatments with the Forma IPL, this can result in permanent hair removal. This is one of the most effective and pain free treatments available.

Treatment areas include: Lip, Top lip & chin, Neck, Underarms, Bikini, Shoulder blades, Brazilian, Lower or upper arms, Abdomen, Shoulder, Upper or lower face, Chest, Buttocks, Half back, Hollywood (including perianal), Bikini & underarms, Brazilian & underarms, Full face, Lower legs, Full arms, Full back, Full face & front neck, Hollywood & underarms, Thighs, Full legs, Full back & shoulders, Brazilian & underarms & lower legs, Brazilian & underarms & full leg & lip

MICROBLADING (SEMI-PERMANANT)	
<p>What is Microblading?</p> <p>You’ve probably heard the term ‘microblading’ quite often lately. A popular headline topic in the glossy magazines, and the go-to treatment of choice for celebrities and those of us who want gorgeously defined brows that will never smudge.</p> <p>Microblading is a poular treatment at our clinics in Northern England. It’s the perfect choice whether your brows are sparse from years of plucking, or you simply love the look of a fuller brow with minimal effort.</p> <p>But what exactly is it? Microblading is a form of cosmetic tattooing, but rather than a traditional cosmetic tattoo machine, a manual handheld tool which contains tiny needle is used to complete the procedure .</p> <p>Why choose Microblading?</p> <p>Save on time</p> <p>A form of cosmetic tattooing where we use an manual hand-held tool to implant award winning KB Pro® pigments into the skin. Mimicking natural brow hairs, we create the most realistic, long-lasting results.</p> <p>Confidence boost</p> <p>Microblading is a huge confidence booster for anybody who has struggled trying to disguise over plucked brows or natural hair-loss over the years. It can make a dramatic difference to self esteem.</p> <p>Who is Microblading for?</p> <p>Microlading is for both women and men – it’s a common misconception that permanent make-up is only for women!</p> <p>Whatever your concern, we welcome you to speak to our friendly team who will be able to discuss how we can make a positive difference in your life with our Microblading treatments</p>	
Microblading (Semi-permanant)	£200.00
Blade and Shade	£250.00
Top-up	£80.00

Please note that deposits are non-refundable and allow 48 hours' notice to cancel or reschedule any appointment, to avoid a 50% cancellation fee.

COURSE DISCOUNTS AVAILABLE

Ask at EMA for current special offers.

STUDENT DISCOUNTS: YOUNGER FACIALS

Facials not only help with the effects of ageing but can greatly enhance and improve skin tone and quality for younger individuals that experience breakouts and sun damage. For details of student discounts call EMA and ask how we can help you.

MILLION DOLLAR FACIAL

Benefits:

- Skin analysis enabling a better home care plan and a greater understanding of their own skin needs
- Brighter, even skin tone as we remove 3 to 4 weeks worth of dead skin cells in one session
- Helping clients who regularly have Botox/Filler to rid of their toxins etc, as the muscles become paralysed and are not used to their full potential. As the lymph fluid builds up, it gathers and stagnates, making us feel sluggish and more susceptible to viruses
- Helping the lymphatic system flow and ridding of any toxins, puffiness around eyes etc
 - Reduces pigmentation
 - Reduces scarring
- Reduces appearance of fine lines and wrinkles
 - Increased collagen production
- All methods of this facial when put together give maximum results that can be seen instantly, and are also ongoing during the cycle of skin healing
